

AMENDMENTS to the CLAIMS

A detailed listing of all claims that are, or were, in the present application is provided below. The status of each claim is identified, and markings indicate changes that have been made to any claims being currently amended by this Amendment.

1. (ORIGINAL) A method for adjusting a price of at least one of a plurality of products, comprising:

providing an indication of a plurality of products, each of said plurality of products having an initial price;

providing an indication of an available price adjustment;

providing an indication of a subsidy offer associated with said price adjustment, said subsidy offer including at least one qualifying action; and

determining a second price for at least one of said plurality of products.

2. (ORIGINAL) The method of claim 1, wherein said determining a second price for at least one of said plurality of products includes adjusting said initial price for at least one of said plurality of products by said price adjustment.

3. (ORIGINAL) The method of claim 1, wherein said determining a second price for at least one of said plurality of products includes adjusting said initial price for at least two of said plurality of products by said price adjustment.

4. (ORIGINAL) The method of claim 1, wherein said providing an indication of an initial price for each of said plurality of products and a price adjustment occurs after said providing an indication of a subsidy offer.

5. (ORIGINAL) The method of claim 1, further comprising:
receiving an indication of an acceptance of said subsidy offer.

6. (ORIGINAL) The method of claim 5, wherein said determining a second price for at least one of said plurality of products occurs after said receiving an indication of an acceptance of said subsidy offer.

7. (ORIGINAL) The method of claim 5, wherein said determining a second price for at least one of said plurality of products occurs before said receiving of an indication of an acceptance of said subsidy offer.

8. (ORIGINAL) The method of claim 1, wherein said determining a second price for at least one of said plurality of products occurs after receiving an indication of a completion of said qualifying action.

9. (ORIGINAL) The method of claim 1, wherein said determining a second price for at least one of said plurality of products occurs after receiving an indication of a commitment to complete said qualifying action.

10. (ORIGINAL) The method of claim 1, wherein said determining a second price for at least one of said plurality of products occurs before receiving an indication of a commitment to complete said qualifying action.

11. (ORIGINAL) The method of claim 1, further comprising:
receiving an indication of a commitment to satisfy said qualifying action.

12. (ORIGINAL) The method of claim 1, further comprising:
receiving an indication of a completion of said qualifying action.

13. (ORIGINAL) The method of claim 1, further comprising:
verifying completion of said qualifying action.

14. (ORIGINAL) The method of claim 13, wherein said verifying
completion of said qualifying action occurs prior to said determining a second
price for at least one of said plurality of products.

15. (ORIGINAL) The method of claim 1, further comprising:
adjusting a second price of at least one of said plurality of products if said
qualifying action is not completed.

16. (ORIGINAL) The method of claim 1, further comprising:
adjusting a second price of at least one of said plurality of products if an
indication of a completion of said qualifying action is not received within a
predetermined period of time.

17. (ORIGINAL) The method of claim 1, further comprising:
providing an indication of a record of said second price of at least one of
said plurality of products.

18. (ORIGINAL) The method of claim 17, wherein said record is provided to at least one of the following:

- a merchant;
- a merchant device;
- a customer;
- a customer device;
- a subsidizer; and
- a subsidizer device.

19. (ORIGINAL) The method of claim 17, further comprising: verifying accuracy of said record.

20. (ORIGINAL) The method of claim 17, wherein said record includes an electronic signal.

21. (ORIGINAL) The method of claim 17, wherein said record is in electronic format.

22. (ORIGINAL) The method of claim 17, wherein said record is provided in tangible form.

23. (ORIGINAL) The method of claim 1, further comprising: receiving an indication of a record from a merchant regarding at least one of said plurality of products.

24. (ORIGINAL) The method of claim 23, further comprising:
verifying accuracy of said record.

25. (CURRENTLY AMENDED) The method of claim 24, wherein said
verifying accuracy of said record includes comparing a price for a product
identified in said record with a second price of a product from said plurality of
products.

26. (ORIGINAL) The method of claim 1, wherein said each of said
plurality of products is associated with a merchant.

27. (ORIGINAL) The method of claim 26, wherein said determining said
second price of at least one of said plurality of products is completed by said
merchant.

28. (ORIGINAL) The method of claim 26, wherein said merchant is a
restaurant.

29. (ORIGINAL) The method of claim 1, further comprising:
providing to a merchant an indication of an acceptance of said subsidy offer.

30. (ORIGINAL) The method of claim 1, wherein at least one of said
plurality of products is provided by a restaurant.

31. (ORIGINAL) The method of claim 1, further comprising:
receiving a customer identifier.

32. (ORIGINAL) The method of claim 31, further comprising at least one of the following:

receiving a merchant identifier associated with said customer identifier; and
receiving a payment identifier associated with said customer identifier.

33. (ORIGINAL) The method of claim 1, further comprising:

providing an indication of a second price associated with at least one of said plurality of products.

34. (ORIGINAL) The method of claim 1, further comprising:

providing an indication of an adjustment amount.

35. (ORIGINAL) The method of claim 34, wherein said providing an indication of an adjustment amount occurs prior to said determining a second price for at least one of said plurality of products.

36. (ORIGINAL) The method of claim 34, wherein said indication of an adjustment amount is provided to at least one of the following:

- a merchant;
- a merchant device;
- a subsidizer;
- a subsidizer device;
- a customer;
- a customer device; or
- a controller.

37. (ORIGINAL) The method of claim 34, further comprising receiving an indication of an allocation of said adjustment amount to at least one of said plurality of products.

38. (ORIGINAL) The method of claim 37, wherein said receiving an indication of an allocation of said adjustment amount occurs before said determining a second price for at least one of said plurality of products.

39. (ORIGINAL) The method of claim 1, further comprising: allocating an adjustment amount to at least one of said plurality of products.

40. (ORIGINAL) The method of claim 1, further comprising: determining an adjustment amount.

41. (ORIGINAL) The method of claim 1, further comprising: receiving an indication of a group of products prior to said providing an indication of a plurality of products.

42. (ORIGINAL) The method of claim 41, wherein said indication is received from:

- a merchant;
- a merchant device;
- a customer;
- a customer device;
- a subsidizer; and
- a subsidizer device.

43. (ORIGINAL) The method of claim 41, wherein said group of products is a subset of said plurality of products.

44. (ORIGINAL) The method of claim 41, wherein said plurality of products is a subset of said group of products.

45. (ORIGINAL) The method of claim 1, further comprising:
receiving an indication of a subsidization of a lowering of an initial price for at least one of said plurality of products.

46. (ORIGINAL) The method of claim 1, wherein said indication of a plurality of products includes an indication of an initial price for at least one of said plurality of products.

47. (ORIGINAL) The method of claim 1, wherein said indication of a plurality of products includes an indication of an initial price for each of said plurality of products.

48. (ORIGINAL) The method of claim 1, further comprising:
providing an indication of an initial price for at least one of said plurality of products.

49. (ORIGINAL) The method of claim 1, further comprising:
providing an indication of an initial price for each of said plurality of products.

50. (ORIGINAL) The method of claim 1, further comprising:
receiving an indication of said price adjustment.

51. (ORIGINAL) The method of claim 50, wherein said indication of said price adjustment is received from at least one of the following prior to said sending an indication of an available price adjustment:

- a subsidizer;
- a subsidizer device;
- a merchant; or
- a merchant device.

52. (ORIGINAL) The method of claim 1, further comprising:
determining a subsidization amount.

53. (CURRENTLY AMENDED) The method of claim 52, ~~further~~ wherein
said determining a subsidization amount includes receiving an indication from a
subsidizer establishing said subsidization amount.

54. (ORIGINAL) The method of claim 52, further comprising:
determining said price adjustment, wherein said price adjustment is less than
or equal to said subsidization amount.

55. (ORIGINAL) The method of claim 52, further comprising:
allocating said subsidization amount across a plurality of price adjustments.

56. (ORIGINAL) A method for adjusting a total price for a plurality of products, comprising:

providing an indication of a plurality of products;

providing an indication of an initial total price of said plurality of products and a price adjustment;

providing an indication of a subsidy offer associated with said price adjustment, said subsidy offer including at least one qualifying action; and

adjusting said initial total price of said plurality of products by said price adjustment.

57. (ORIGINAL) The method of claim 56, wherein said adjusting said initial total price occurs after receiving an indication of an acceptance of said subsidy offer.

58. (ORIGINAL) The method of claim 56, wherein said adjusting said initial total price occurs after receiving an indication of a completion of said qualifying action.

59. (ORIGINAL) The method of claim 56, wherein said adjusting said initial total price occurs after receiving an indication of a commitment to complete said qualifying action.

60. (ORIGINAL) A method for adjusting a price for each of a plurality of products, comprising:

providing an indication of a plurality of products;

providing an indication of an initial price for each of said plurality of products and a corresponding price adjustment for each of said plurality of products;

providing an indication of a subsidy offer associated with said plurality of products, said subsidy offer including at least one qualifying action; and

adjusting said initial price for at least one of said plurality of products by its corresponding price adjustment.

61. (ORIGINAL) The method of claim 60, wherein said adjusting said initial price for at least one of said plurality of products occurs after receiving an indication of an acceptance of said subsidy offer.

62. (ORIGINAL) The method of claim 60, wherein said adjusting said initial price for at least one of said plurality of products occurs after receiving an indication of a completion of said qualifying action.

63. (ORIGINAL) The method of claim 60, further comprising:

receiving a request for information regarding a selection of products.

64. (ORIGINAL) The method of claim 63, wherein said plurality of products is a subset of said selection of products.

65. (ORIGINAL) A method for adjusting a price for one or more items, comprising:

providing an indication of a plurality of items;

providing an indication of an initial price for each of said plurality of items and a corresponding price adjustment for each of said plurality of items;

providing an indication of at least one qualifying action associated with at least one of said plurality of items; and

adjusting said initial price for at least one of said plurality of items by its corresponding price adjustment.

66. (ORIGINAL) The method of claim 65, wherein said adjusting said initial price for at least one of said plurality of items occurs after receiving an indication of a commitment to complete a qualifying action.

67. (ORIGINAL) The method of claim 65, wherein said adjusting said initial price for at least one of said plurality of items occurs after receiving an indication of a completion of a qualifying action.

68. (ORIGINAL) The method of claim 65, further comprising:

receiving an indication of a selection of a qualifying action.

69. (ORIGINAL) A method for adjusting prices of one or more items available at a restaurant, comprising:

receiving a request for a list of items associated with a restaurant;

providing an indication of said list, wherein said list includes a plurality of items available from said restaurant, each of said plurality of items having an associated initial price and an associated price adjustment available upon completion of a qualifying action;

receiving an indication of a commitment to complete said qualifying action; and

adjusting the associated initial price of at least one of said plurality of items by its respective price adjustment.

70. (ORIGINAL) The method of claim 69, wherein said list of items comprises a menu.

71. (ORIGINAL) A method for adjusting a price of at least one item available at a restaurant, comprising:

receiving a request for a plurality of items associated with a restaurant;

providing an indication of said plurality of items, each of said plurality of items having an associated initial price;

providing an indication of a plurality of qualifying actions associated with said plurality of items, each of said qualifying actions having an associated price adjustment;

receiving an indication of a selected one of said plurality of qualifying actions;

determining an adjusted price for at least one of said plurality of items using said price adjustment associated with said at least one of said plurality of qualifying actions; and

providing an indication of said adjusted price for at least one of said plurality of items.

72. (ORIGINAL) The method of claim 71, further comprising:

receiving a verification request.

73. (ORIGINAL) The method of claim 72, wherein said verification request includes at least one item and a price associated with said at least one item.

74. (ORIGINAL) The method of claim 73, further comprising:

verifying accuracy of said price associated with said at least one item in said verification request.

75. (ORIGINAL) A method for adjusting prices of at least one item available at a restaurant, comprising:

receiving a request for a menu of items associated with a restaurant;

providing an indication of said menu, wherein said indication includes an item available from said restaurant, said item having an associated initial price and an associated price adjustment available upon completion of a qualifying action;

receiving an indication of a commitment to complete said qualifying action; and

determining a second price for said item using said price adjustment.

76. (CURRENTLY AMENDED) A method for adjusting prices of one or more items available at a merchant, comprising:

receiving an indication of a plurality of items, each of said plurality of items having an associated initial price;

receiving an indication of a second price for at least one of said plurality of items;

requesting a verification of said second price; and

receiving an indication of a verification of said second price.

77. (ORIGINAL) The method of claim 76, wherein the merchant is a restaurant.

78. (ORIGINAL) A method for adjusting prices of one or more items available at a merchant, comprising:

establishing a respective initial price for each of a plurality of items available at a merchant;

providing an indication of said plurality of items;
receiving an indication of an adjustment in price for at least one of said plurality of items;
requesting a verification of said price adjustment; and
receiving an indication of a verification of said adjustment in price.

79. (ORIGINAL) The method of claim 78, further comprising:
providing an indication of an initial price for at least one of said plurality of items.

80. (ORIGINAL) A method for adjusting the price of an item, comprising:
receiving an indication of a plurality of items, each of said plurality of items having an initial price;
receiving an indication of a price adjustment;
receiving an indication of a subsidy offer associated with said price adjustment, said subsidy offer including at least one qualifying action; and
receiving an indication of a second price for at least one of said plurality of items.

81. (ORIGINAL) A method for adjusting prices of one or more items available at a restaurant, comprising:

providing a request for a list of items associated with a restaurant;

receiving an indication of said list, wherein said list includes a plurality of items available from said restaurant, each of said plurality of items having an associated initial price and an associated price adjustment available upon completion of a qualifying action;

providing an indication of a commitment to complete said qualifying action; and

receiving an indication of an adjustment of at least one of said plurality of items item initial price by its respective price adjustment.

82. (CURRENTLY AMENDED) A method for allowing a third party to subsidize a price of an item available from a merchant, comprising:

providing an indication of a commitment by at least one third party to subsidize a price reduction for at least one item available from a merchant, said commitment having an associated qualifying action;

receiving an indication of a completion of said qualifying action; and providing a subsidization amount.

83. (ORIGINAL) The method of claim 82, further comprising:
determining a price reduction amount to subsidize for at least one item available from said merchant.

84. (ORIGINAL) The method of claim 83, further comprising:
providing an indication of said price reduction amount.

85. (ORIGINAL) The method of claim 82, further comprising:
receiving an indication of an initial price for at least one item available from
a merchant.

86. (ORIGINAL) The method of claim 82, wherein said subsidization
amount is based on said price reduction amount.

87. (ORIGINAL) The method of claim 82, wherein said subsidization
amount is provided to at least one of the following:

a merchant; and
a customer.

88. (ORIGINAL) The method of claim 82, further comprising:
receiving a request to subsidize a customer purchase.

89. (ORIGINAL) The method of claim 82, further comprising:
providing an indication of an allocation of said subsidization amount.

90. (ORIGINAL) The method of claim 82, wherein said indication of said
commitment includes an indication of said subsidization amount.

91. (ORIGINAL) The method of claim 82, further comprising:
determining said subsidization amount.

92. (ORIGINAL) A system for adjusting the price of at least one product, comprising:

- a memory;
- a communication port; and
- a processor connected to said memory and said communication port, said processor being operative to:
 - provide an indication of a plurality of products, each of said plurality of products having an initial price;
 - provide an indication of a price adjustment;
 - provide an indication of a subsidy offer associated with said price adjustment, said subsidy offer including at least one qualifying action; and
 - determine a second price for at least one of said plurality of products.

93. (ORIGINAL) A computer readable medium for use in a pricing system, the computer readable medium storing a computer program comprising:

- computer readable means for sending an indication of a plurality of products, each of said plurality of products having an initial price;
- computer readable means for sending an indication of a price adjustment;
- computer readable means for sending an indication of a subsidy offer associated with said price adjustment, said subsidy offer including at least one qualifying action; and
- computer readable means for establishing a second price for at least one of said plurality of products.

94. (ORIGINAL) An article of manufacture, comprising:
a computer usable medium having a computer readable program means
embodied therein for operating an information system, the computer readable
program means in said article of manufacture operable to:

provide an indication of a plurality of products, each of said plurality of
products having an initial price;
provide an indication of a price adjustment;
provide an indication of a subsidy offer associated with said price
adjustment, said subsidy offer including at least one qualifying action; and
determine a second price for at least one of said plurality of products.

95. (ORIGINAL) An apparatus, comprising:
means for sending an indication of a plurality of products, each of said
plurality of products having an initial price;
means for sending an indication of a price adjustment;
means for sending an indication of a subsidy offer associated with said price
adjustment, said subsidy offer including at least one qualifying action; and
means for establishing a second price for at least one of said plurality of
products.
